SKILLS

- Teamwork
- Leadership
- Javascript
- flutter
- Dart
- React
- Digital Marketing
- Logism Software
- MATLAB

LANGUAGES

- Amharic (Native)
- English (Fluent)

PROFILE

A graduate in Electrical and Computer Engineering, specializing in Computer Engineering. Skilled in web development (HTML, CSS, JavaScript) and mobile app development (Flutter, Dart). A quick learner and dedicated team player, eager to apply technical expertise in software development, problem-solving, and system performance optimization. Seeking opportunities to leverage my skills in creating innovative solutions and contributing to the success of impactful projects.

WORK EXPERIENCE

Space Science and Geospatial Institute

2024

- I worked as a full-stack developer intern on a satellite image catalog system. We used Django as our backend development framework and HTML, CSS, and Javascript on the frontend.
 - I helped develop authentication, search and filtering and payment integration features.
 - I also helped set up a file server to fetch the images.

PROJECTS

Customer Relation Managment System For Arbaminch University

- A web-based CRM system for Arbaminch University built using React, Express Js and MongoDB.

InnovateET

- create a visually appealing and creative landing page for the company using Next.js, TailwindCSS, React Leaflet, Git, Figma.

EXTRACURRICULAR ACTIVITIES

- Ambassador of goodwill in youth personality development.
- Participated in summer voluntary service focusing on environmental conservation in Arbaminch.
- Participated in summer youth voluntary service focused on health and wellness initiatives in Arbaminch.
- Volunteered in a youth development program in Arbaminch, providing educational resources and support to children living with HIV/AIDS.
- Participated in summer youth voluntary service focused on Food Guarantee in Arbaminch.
